PROFILE

Known for my strong communication, teamwork, and problem-solving skills, I am an undergraduate software engineer skilled in WordPress, Elementor, responsive design, SEO, HTML, CSS, and JavaScript. I focus on delivering high-quality, user-friendly solutions, with expertise in graphic design and video editing to enhance web experiences.

PROJECTS

St Thomas Waterdown 	December 2024
Developed a responsive WordPress website using Elementor, creating custom post types for event postings. The site is SEO-optimized and tailored to meet the client's exact requirements, ensuring a user-friendly and functional design.	
Brock Counselling 	December 2024
Collaborated extensively with the client to understand their vision of wellness and trauma-informed care. Delivered a fully responsive WordPress website using Elementor, reflecting the client's expectations perfectly.	
Grown Kids 	November 2024
Built an e-commerce platform targeting toy enthusiasts using WordPress, Elementor, and WooCommerce. The site is SEO-optimized, ensuring improved search visibility and a seamless user experience.	
Hotel Maradha 	October 2024
Redesigned MaRadha Colombo's website using Elementor, custom post types, and SEO optimization. Enhanced performance, speed, and user experience with ongoing maintenance and blogging features.	
dineshsamz.com 	August 2024
