## PROFILE

---

I am flexible and easy to work with. I am a smart working IT professional with strong goals, and I build trust and teamwork with the people I work with... I specialize in **WordPress development**, with strong expertise in **Elementor**, **Custom Post Types (CPTs)**, and **responsive web design**. I also work with **HTML**, **CSS**, and **JavaScript** to build clean, functional, and user-friendly websites.

## PROJECTS

---

### Hotel Maradha [🔗](#)

Redesigned MaRadha Colombo's website using Elementor, custom post types, and SEO optimization. Enhanced performance, speed, and user experience with ongoing maintenance and blogging features.

### Wander Ceylon [🔗](#)

Wander Ceylon is a simple yet perfectly fine-tuned travel website, designed to match the client's dream concept, with all the necessary features for presenting travel packages and handling inquiries.

### Dutchgate Aluthgama [🔗](#)

Wordpress / Elementor

### Auto Glance [🔗](#)

Auto Glance is an auto maintenance and repair service shop. We designed a sleek WordPress website using Elementor, with basic SEO optimization, ensuring a user-friendly and efficient online presence.

### St. Thomas Waterdown [🔗](#)

St. Thomas the Apostle Parish is a Canadian church. The website, built with WordPress and Elementor, includes custom post types, basic SEO, and a responsive design.
